

SINGLE IBC SPILL PALLET W/O PLATFORM

PRODUCT

This IBC spill pallet is fully compliant with the UK 110% bund regulation and is specifically designed for use with most common footprints of 1000ltr intermediate bulk containers (IBC). The integral support columns have been modified to accommodate a grid-mesh (optional) which should be used when working with an IBC with a metal pallet base; otherwise you can still sit the IBC directly onto the support columns.

To the front of the spill pallet is a built-in 260mm deep decanting area which allows any leaks/drips to be contained within the sump and as you would expect the unit has broad range chemical compatibility.

PRODUCT NO	DIMENSIONS	SUMP	UDL	WEIGHT
P3201812	1735mm x 1455mm x 715mm	1125L	1500kg	77kg
