

COSHH STORAGE CABINETS H457 X W457 X D457MM

PRODUCT

The COSHH Storage Cabinet is a compact, fire-resistant unit designed for safely storing hazardous substances in the workplace. Constructed from welded 20-gauge steel, it features reinforced doors with a two-point locking system and an adjustable shelf that doubles as a spill tray. With a 30-minute fire resistance rating, it complies with HSG51 and DSEAR safety standards.
